

ELECTRIC

VECTRIX ELECTRIC SPECIFICATIONS

PERFORMANCE	Max Speed	100 km/h (62 mph)
	Acceleration	0-80 km/h (50 mph) in 6.8 seconds 0-50 km/h (31 mph) in 3.6 seconds
	Range	110 km (68 miles) @ 40 km/h (25 mph)
	DAaRT™	Patented multi-function throttle (DAaRT™) provides regenerative braking and slow-speed reverse
COMPONENTS	Braking	Front and rear Brembo disc brakes
	Tires	Pirelli: GTS23 120/70-14 (Front) Pirelli: GTS24 140/60-13 (Rear)
	Fork	Marzocchi Telescopic Fork
	Suspension Frame	Sachs Twin Shocks Lightweight Aluminum frame
BATTERY	Battery Type	Nickel Metal Hydride (NiMH)
	Capacity	3.7 kWh
	Voltage	125V
	Charger	1.5 kW on-board battery charger; 110V-220V (50/60Hz)
	Recharge Time	2 hours (80%)
	Discharge Cycles	1,700
	Estimated Life	10 years or 80,000 km
MOTOR & GEARBOX	Motor Type	Brushless DC, radial air-gap motor
	Power	Peak power 20,2 kW Maximum continuous power: 7 kW
	Torque	Maximum torque: 65 Nm Maximum continuous torque: 22 Nm
	Gearbox	Coaxial integrated rear-wheel mounted planetary gear drive
ELECTRONICS	Controller	DSP & IGBT based all-digital electronic control and motor drive system
	Instrumentation	One central analogue display and two side LCDs show: speed, odometer, battery charge, estimated range and system status
	Communications	Controller Area Network (CAN) Systems diagnostics and communication via laptop interface
DIMENSIONS	Weight	210 kg (462 lbs)
	Wheelbase	1,525 mm (60")
	Seat Height	770 mm (30")
	Wheels	Front: 14", Rear: 13"
	Storage Capacity	Under-seat: 40 ltr (1 full-faced helmet) Glove compartment: 6 ltr Top case: up to 47 ltr
	Carrying Capacity	2 passengers
OTHER	Warranty	24 months (+24 with Plug&Go)
	Emissions	Polluting: Zero CO2: Zero Acoustic: Negligible

MAXIMUM PERFORMANCE. ZERO EMISSIONS.

JOIN THE REVOLUTION

A revolution has started - a revolution against traffic congestion, pollution, parking hassles, inflexible public transportation, high oil prices... But this revolution will be quiet!

Introducing the Vectrix MAXI-Scooter - a revolution in urban transportation. It's the world's first high-powered electric two-wheel vehicle designed specifically to compete with large gasoline-powered scooters. It offers breathtaking acceleration, low running costs, minimal maintenance, simple operation, low noise, and zero emissions.

The Vectrix MAXI-Scooter is the perfect solution for urban commuters. Its top speed of 100 km/h (62 mph) and fast acceleration make it easy and safe to zip in and out of traffic. The onboard charger plugs into any standard electrical outlet to quickly charge the batteries. With ample storage and long range, the Vectrix MAXI-Scooter will more than satisfy your commuting and recreational needs.

It's fun to ride and easy to operate. A low center of gravity and stiff frame provide excellent handling, and the patented throttle-activated regenerative braking system slows the Vectrix MAXI-Scooter smoothly and safely. Parking is a breeze with the slow-speed reverse function.

Vectrix uses innovative zero-emission technology to offer a clean, quiet, and much-needed alternative to existing gasoline-powered, two-wheel vehicles.

OUTSTANDING PERFORMANCE

- **Fast** – A top speed of 100 km/h (62 mph).
- **Rapid Acceleration** – 0-80 km/h (50 mph) in 6.8 seconds.
- **Extended Range** – Up to 110 km (68 miles) on a single charge.
- **Excellent Handling** – A low center of gravity, stiff frame, and even weight distribution provide superior handling.

EASY TO USE

- **Stop and Go with One Hand** – Simply twist the throttle for instant acceleration, and twist it forward to slow down smoothly and safely. During braking, the patented regenerative braking system (DAaRT™) redirects energy back into the battery pack, which helps to extend the range by up to 12%.
- **Easy to Park** – The multi-function throttle also controls a slow-speed reverse function—making it easy to maneuver in and out of tight parking spaces.
- **Quick to Charge** – The on-board charger plugs into any standard 110/220V power outlet and recharges the battery pack (80% charge) in just two hours.
- **Practical** – The under-seat compartment accommodates a full-sized helmet, and the glove box provides additional storage. Cell phones and other electronic devices can be charged from the integrated 12-volt power outlet.

ENVIRONMENTALLY FRIENDLY

- **Zero Emissions** – The Vectrix maxi-scooter is emission free, whereas gasoline scooters can produce up to ten times the pollution of the average automobile!
- **Low Noise** – The Vectrix maxi-scooter is virtually silent.
- **Unlimited Access** – Enjoy free parking and charging in many cities, and get access to all restricted inner-city traffic zones.

COST EFFECTIVE

- **Low Running Costs** – Electricity is one-tenth of the cost of gasoline.
- **Minimal Maintenance** – Many of the key components of the MAXI-Scooter are sealed and maintenance free. You'll never have to change oil or replace filters again.
- **Incentives and Rebates** – Government rebates, local subsidies and exemptions from road tax, property tax, registration fees, and inner-city congestion charges provide significant cost savings.
- **Long Battery Life** – The Nickel Metal Hydride (NiMH) battery pack has an estimated life of up to 10 years based on 8,000 km (5,000 miles) per year.

THE VECTRIX ELECTRIC MAXI-SCOOTER OUTPERFORMS TRADITIONAL GASOLINE-POWERED SCOOTERS:

ATTRIBUTES	VECTRIX	GAS SCOOTER
ACCELERATION	EXCELLENT	GOOD
OPERATING COSTS	VERY LOW	HIGH
MAINTENANCE	MINIMAL	HIGH
EMISSIONS	ZERO	HIGH
NOISE	QUIET	NOISY
GOVT. SUBSIDIES	YES	NO
TECNOLOGY	SUNRISE	SUNSET
GROWTH POTENTIAL	HIGH	MEDIUM

COOL PEOPLE RIDE ELECTRIC

VECTRIX IS COMMITTED TO DELIVERING VEHICLES THAT ARE CLEAN, AFFORDABLE, AND FUN TO DRIVE. WE INVITE YOU TO COME ALONG FOR THE RIDE.

MULTI-FUNCTION THROTTLE WITH "REGEN ENGINE BRAKING"
